Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. It all comes down to choice, the other forms of broadcast media do not provided a service the fit my needs. Satellite radio is driven by the market and as the number of subscribers have grown and continue to grow, the market had a need and satellite radio filled that need.
